Summary

I Tend to contribute a lot and work as a Team member as well to solve problems and build innovative software solutions. I am passionate about customers and product quality, and I can provide technical guidance to Program Managers as they consider user needs and product requirements. I Always try hard to learn and adopt to latest technologies. I have the Ability to design, develop and test great softwares which can empower every person and organization on the planet to achieve more.

I Always Look for great ideas and work hard to bring it to real world to make people's life easier.
